Representative Past Performance

CDC's National Center on Birth Defects and Developmental Disabilities

Analysis of scientific literature, data and articles. Integration of system science constructs into daily activities. Educational, health and outreach programs.

Walter Reed Medical Hospital

Administrative staffing support including Management Analysts, Technical Writers, Medical Record Clerks, Administrative Assistants, Supply Technicians, and Patient Trackers.

Department of Veteran Affairs

Provisioned and implemented an interactive patient care system at VA Hospitals across the country.

U.S. Army Office of the Surgeon General (OTSG)

IT technical, and analytical services for program management, integrated logistics support, network management/administration for NIPR and SIPR support (which includes DoD's Information Assurance Program and Risk Management Framework), technical/helpdesk support, and customer support.

Defense Health Agency, MEDCOM

Cybersecurity support for the U.S. Army Medical Command including Risk Management Framework (RMF) process Subject Matter Experts (SMEs). SMEs use the DoD/DISA Enterprise Mission Assurance Support Service (eMASS) tool to process Medical Device Risk Management Framework packets so each device can receive an Authorization to Operate (ATO) on the government network.

U.S. Naval Hospital Guam

Design and outfit the new, 271,000 square foot replacement hospital with medical equipment, clinical case goods, furniture and furnishings, artwork, communication systems, information technology, resource protection, security systems, and signage and wayfinding.

6th Medical Group Clinic, MacDill AFB, FL

Initial Outfitting, Transition and Furniture, Fixtures & Equipment (FF&E) services for the new 254,000 square foot "super" clinic providing relocation planning, equipment inventory and procurement, interior design services, move supervision, product installation, and necessary equipment testing to fully outfit the facility.
