Akima’s suite of specialized mission support services enable agencies to create value that they otherwise may not be able to attain.

We provide essential functions that access a wide array of subject matter expertise, synthesize and re-use critical business knowledge, enhance program management, and provide staffing flexibility when it’s needed—anywhere across your mission.

Core Capabilities

- Intelligence Analysis
- Office Administration
- Records Management
- Research & Development
- Staff Augmentation
- Subject Matter Expertise

Working with Akima

Akima is an Alaska Native Corporation supporting a portfolio of 8(a) companies, small businesses, and operating companies that are both specialized and nimble—two qualities that allow us to respond quickly to each customer’s unique needs. In 2019, Akima was ranked #38 amongst the top 100 government contractors by Washington Technology.

We offer customers streamlined procurement solutions through a wide variety of government-wide acquisition contract vehicles, basic ordering agreements, and agency specific IDIQs, as well as the option of direct/sole source contracts through our 8(a) companies.

- SBA may award a direct award contract (commonly referred to as a sole source) to an 8(a) participant owned and controlled by an ANC [13 CFR 124.506(b)]
- Quick, smooth transition to full contract operations typically in 30 to 60 days
- Awards above $22M for federal civilian agencies or $100M for the Department of Defense require a simplified J&A [FAR 6.302-5(b)(4) and Class Deviation 2020 –00009]
- Limited potential for award protest [13 CFR 124.517(a)]
- Small Disadvantaged Business Credits [13 CFR 124.109(a)(4)]
- Negotiated fair price
Representative Programs

**USPTO**  
*Patent Administrative Support Services*

Akima provides personnel support to multiple USPTO departments. We provide agency-wide onsite administrative, operational, and program management support, including diagnostic, maintenance and troubleshooting services for the examining core. We maintain the necessary paperwork to process personnel promotions, performance appraisal plans, performance reviews, and awards. We review, audit, and update electronic personnel records, as well as sort and distribute patent applications for signatory review and facilitate the review process.

**Department of Energy**  
*Mission Essential Staffing Support: Lawrence Livermore*

We provide mission essential staffing support services to Lawrence Livermore National Laboratory (LLNS). Our team manages a large, diverse, and at times rapidly fluctuating workforce consisting of scientists, engineers, IT professionals, and facility operations personnel, within a fast-paced, highly classified, and sensitive work environment. On average, we place 18 new employees on the contract each month, while maintaining a low voluntary attrition rate of 2.3%. More than half of the employees have the goal of achieving nuclear fusion and energy gain in the laboratory for the first time in history.

**U.S. Air Force**  
*C2ISR & Rescue Squadron Support*

Akima delivers command and control, Intelligence Surveillance and Reconnaissance (C2ISR) and rescue squadron support to Air Combat Command aircraft. We also provide training, standardizations and evaluations, scheduling, non-aviation programs and readiness, mobility, support for electronic flight bag managers and an information system security officer. This contract represents a new requirement to provide functional support for additional duties assigned to squadron personnel and allows flight crews to focus on flight and operations activities, improving training, mission readiness, and aircrew retention.

**Department of State**  
*Visa Support Services*

Akima supports the U.S. Department of State’s continuing requirement for visa support services at the Kentucky Consular Center in Williamsburg, KY and the National Visa Center in Portsmouth, NH. Our team provides management, logistical, and administrative support for the processing of visa applications that lead to permanent residence, as well as shorter-term visas for tourism, business, research, and temporary work. We are responsible for managing the two centers in an integrated manner, with consistent and consolidated management reporting and oversight spanning the entire scope of services.

**Department of Defense**  
*Advanced Distribution Learning Initiative Support*

Our team provides research, operations, engineering, programmatic, organizational, and administrative support to the Advanced Distributed Learning (ADL) Initiative. Founded in the 1990s, the ADL Initiative is charged with conducting research, development, testing, and evaluation to enhance distributed learning across the DoD and federal civilian government, as well as International NATO and coalition partners. The ADL Initiative encourages collaboration, facilitates interoperability, and promotes best practices for using distributed learning to provide the highest-quality training and education.

**FAA**  
*Technical Support Services*

In support of the Federal Aviation Administration (FAA) Mike Monroney Aeronautical Center (MMAC) in Oklahoma City, Oklahoma, we provide technical support services to the FAA Logistics Center (FAALC). The mission of the FAALC is to deliver technical and supply support to FAA National Airspace System field facilities and other government agencies. Our team is comprised of a variety of technical support personnel focused on delivering expert services for aircraft guidance systems, surveillance equipment, automation and communications systems, and technical data.
FBI

Subject Matter Expert Support

Our team provides subject matter expert (SME) support to the Federal Bureau of Investigation (FBI) with varying levels of experience and demonstrated areas of operational intelligence expertise, specific knowledge, skills, and abilities. We have more than 100 distinct and specialized SMEs supplementing FBI government staff and enhancing the Bureau’s ability to perform its overall mission. Our SMEs currently support areas including weapons of mass destruction, counterterrorism, gang intelligence, financial crimes, electronic forensics, and more.

Department of Energy

Supplemental Labor Support: Sandia National Laboratories

We provide a wide range of complex technical and administrative services fundamental to the mission of Sandia National Laboratories. These assignments normally require an advanced technical and/or business degree, as well as the ability to work independently in unstructured situations to develop, evaluate, and apply technical and business concepts to solve complex problems involving research, development, systems analysis, design, testing, analysis, budgeting, planning, and management.
The Akima Advantage
