Compass Point: Transforming the *Future of Enterprise IT*

About ITES-3S

ITES-3S is an Indefinite Delivery Indefinite Quantity (IDIQ) contract that includes a full range of services and solutions necessary for the Army to satisfy its support of the Army Enterprise infostructure and infrastructure goals with IT services throughout CONUS and OCONUS locations, including warzone areas. The scope includes the Command, Control, Communications, Computers, and Information Management (C4IM) requirements as defined in Army Regulation 25-1 (AR 25-1). Additionally, ITES-3S will include the services and solutions necessary for the Army and other services to transition from current service-centric information environments to the enterprise JIE as directed by the DoD CIO.

- Cybersecurity
- Information Technology

About Compass Point

From cloud computing and artificial intelligence (AI) to big data and analytics, the future of IT has arrived. The Department of Defense is embracing disruptive technologies at an increasing rate to improve decision-making, take control of data security, and deliver superior mission outcomes.

As an SBA certified 8(a) company wholly owned by Akima, an Alaska Native Corporation, Compass Point is your strategic partner for streamlined contracting and procurement. Our association with our parent company, Akima, enables us to receive their support for common administrative services and achieve successful performance on programs of any size. As an ANC, our 14,000 native Iñupiat Alaskan shareholders are the sole beneficiaries of the profits generated by the Akima family of companies.
