About NASA SEWP V

The Solutions for Enterprise-Wide Procurement (SEWP V) Government-Wide Acquisition Contract provides the latest in information technology products and associated services for all U.S. Federal agencies, including the Department of Defense and authorized contractors. The contract is administered by the NASA SEWP Program Office, referred to as the SEWP PMO who processes orders issued by agencies, provide customer service, and manage contractor relations. SEWP offers low prices with an efficient ordering process using pre-competed contracts.

SEWP Ordering Process

Procurement orders must be routed through the SEWP Program Management Office (PMO), instead of directly to the Contract Holder. All delivery orders are processed within the business day of receipt and electronically forwarded to the Contract Holder.

SEWP online RFI/RFP tool is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP RFI/RFP tool will automatically include the Contract Holders within a selected Group or based on a suggested source.

STEP 1

End User or Contracting Officer

1. Determines best value through market research.
2. Creates delivery order citing SEWP contract number.
3. Sends order to SEWP PMO

STEP 2

NASA SEWP PMO

1. Verifies order.
2. Forwards valid order to appropriate contract holder.

STEP 3

Affigent

1. Processes order.
2. Delivers equipment and services.
3. Invoices Agency or Contractor.

Affigent is part of the small business category on the NASA SEWP V Contract.
This Contract is Open to all Federal agencies.

About Affigent

Affigent is a turnkey IT solutions provider dedicated to helping agencies modernize their IT infrastructure while simultaneously improving security and delivering mission-serving solutions faster and at a lower cost. As a wholly owned subsidiary of Akima, an Alaska Native Corporation, Affigent offers customers the flexibility and agility of working with a small business, while also receiving support from a global enterprise with decades of experience working with the federal government. In 2019, Washington Technology ranked the Akima portfolio of companies #38 amongst the top 100 government contractors. Affigent has more than 100 technology partnerships with leading vendors such as Dell Technologies, Hewlett Packard Enterprise, Oracle, Riverbed, and Splunk and core capabilities in cloud computing, cybersecurity, enterprise IT, network operations and application development.
