

## RiverTech FAA Technical & Engineering Services

As a wholly owned subsidiary of Akima, an Alaska Native Corporation, and a SBA 8(a) company that is eligible for sole source award, RiverTech has deep mission understanding, top CPARs, and welcomes the opportunity to support your upcoming mission requirements. Our technical and engineering support teams ensure mobility, safety, and cybersecurity while providing the necessary talent, tools, and technologies to the most demanding and strategically critical global environments.

### Our Services

#### DOT FAA Engineering Support Services

Provide Engineering Services and Support to the Groups Product Divisions within the FAALC.

RiverTech provided engineering support for a broad range of systems consisting of thousands of individual pieces of equipment in the facilities, surveillance, navigational aids, weather systems, and other agencies. Additionally RiverTech provided configuration management, hardware and software documentation, modification(s), field support, and systems support.

#### DOT FAA Technical Support Services

Provide Technical Services and Support to the Group/Product Divisions within the FAALC.

RiverTech delivers a wide-range of technical support to accomplish the FAA's logistics support mission. Support includes but is not limited to technical expertise, materials, and fabrication effort to install, test and evaluate equipment and modifications; evaluate hardware and software documentation, drawings, specifications, and cost estimates to implement proposed changes to equipment on a national level; and provide equipment installation, and other maintenance related support for Headquarters National Airway System and ATO Service Areas requiring FAALC support.
