

Wolverine is an Alaska Native Corporation (ANC), a Small Disadvantaged Business (SDB) and a wholly owned subsidiary of Akima. Headquartered in Herndon, Virginia, Akima supports a network of over three dozen socioeconomically disadvantaged small businesses through an innovative shared services model that provides business processes and shared back-office support at a level akin to that found in a Fortune 500 defense contractor. This enables Akima's portfolio of companies to operate as a small business in terms of autonomy, customer interaction and decision making, while receiving support from a global enterprise with decades of experience working with the federal government.

About Wolverine

Wolverine brings a complete set of professional, administrative, and craft labor personnel known for a quality of service that is second to none. The result is streamlined operations, lower costs, and peak performance across your entire mission.

Our Capabilities

- **Base-Level Logistics:** Wolverine's experienced logistics team provides 24/7 services nationwide, including transportation, fleet and shuttle bus management, maintenance, shipping/receiving, supply management, warehousing, and inventory control.
- **Facilities Operations & Maintenance:** Our skilled technicians provide services such as carpentry, electrical, HVAC, plumbing, welding, painting, emergency management, airfield lighting, plant operations, water/wastewater management, waste treatment, grounds maintenance, janitorial, hazardous waste disposal, fire alarm maintenance, pest control, and elevator maintenance for commercial and government clients..
- **Integrated Base Operations Support:** Wolverine's expertise in base operations support comprises management of multi-faceted installations requiring a broad range of services ranging from facility maintenance and repair to equipment operation and maintenance, grounds maintenance, asset management, work order reception and tracking, and pest control, and more.
- **Secure Warehouse Support:** Wolverine provides logistical support and inventory management, including secure handling, transportation, receipt, storage, packing, and worldwide shipment of materials, program equipment, and official vehicles.
- **Technical Support Services:** Wolverine provides specialized technical and engineering operation and maintenance support services to government facilities such as laboratories, missile launch and testing operations, training ranges and communications facilities.
- **Vehicle/Equipment Maintenance:** Many customers award vehicle and equipment maintenance separately from base logistics contracts. We have experience with Department of Defense and state-level DOT agencies, offering services such as repairs, routine and non-routine maintenance, motor pool management, and vehicle inspection.
