

About Wolverine Services

OUR CAPABILITIES

Integrated Base Operations Support:

Our expertise in base operations support comprises management of multi-faceted installations requiring a broad range of services including facility maintenance and repair, equipment operation and maintenance, grounds maintenance, asset management, work order reception and tracking, pest control, and more.

Base-Level Logistics:

From transportation and motor pool management, fleet management and maintenance, and shuttle bus operation, to material maintenance, shipping/receiving, supply management, warehousing and inventory control, our experienced logistics personnel are fully qualified to provide critical services 24/7 nationwide.

Technical Support Services:

Wolverine provides specialized technical and engineering operation and maintenance support services to government facilities such as laboratories, missile launch and testing operations, communications facilities, and training ranges.

Secure Warehouse Support:

We provide the support services necessary to perform logistical operations and inventory management services to include secure handling and transportation of materials and program equipment. This work includes the receipt, inventory control, storage, warehouse management, packing, and worldwide shipment of non-personal items and program property, including official vehicles.

Facilities Operations & Maintenance:

Our skilled technicians and trades personnel provide carpentry, electrical, HVAC, plumbing, masonry, sheet metal, welding, tile setting, painting, emergency management, high voltage electrical, airfield lighting, plant operations, water/wastewater management, solid waste treatment, storm water management, roads and grounds, janitorial, fire alarm and elevator maintenance, hazardous waste management/disposal, and pest control, to a broad range of customers.

Wolverine is an Alaska Native Corporation (ANC), a Small Disadvantaged Business (SDB) and a wholly owned subsidiary of Akima. Headquartered in Herndon, Virginia, Akima supports a network of over three dozen socioeconomically disadvantaged small businesses through an innovative shared services model that provides business processes and shared back-office support at a level akin to that found in a Fortune 500 defense contractor. This enables Akima's portfolio of companies to operate as a small business in terms of autonomy, customer interaction and decision making, while receiving support from a global enterprise with decades of experience working with the federal government.
