About NASA SEWP VI

NASA Solutions for Enterprise-Wide Procurement VI (SEWP VI) is an OMB-designated Best-in-Class multiple-award Indefinite Delivery/Indefinite Quantity (MA-IDIQ) Governmentwide Acquisition Contract (GWAC) administered by the National Aeronautics and Space Administration (NASA) and available to all federal agencies for the procurement of IT products and services. SEWP VI is designed to provide federal agencies with access to a broad range of commercial offerings, including hardware, software, cloud services, cybersecurity technologies, engineering support, and consulting services. SEWP is composed of three (3) scope categories:

- **Category A** - ITC/AV Solutions
- **Category B** - Enterprise-Wide ITC/AV Service Solutions
- **Category C** - Mission-Based ITC/AV Service Solutions

SEWP Ordering Process

Procurement orders must be routed through the SEWP Program Management Office (PMO), instead of directly to the Contract Holder. All delivery orders are processed within the business day of receipt and electronically forwarded to the Contract Holder.

SEWP online RFI/RFP tool is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP RFI/RFP tool will automatically include the Contract Holders within a selected Group or based on a suggested source.

STEP 1

End User or Contracting Officer

1. Determines best value through market research.
2. Creates delivery order citing SEWP contract number.
3. Sends order to SEWP PMO

STEP 2

NASA SEWP PMO

1. Verifies order.
2. Forwards valid order to appropriate contract holder.

STEP 3

Akima Data Management

1. Processes order.
2. Delivers equipment and services.
3. Invoices Agency or Contractor.

Akima Data Management is a small business under NASA SEWP VI Categories B and C.

Contract #:	Category B: 80TECH26D1314 Category C: 80TECH26D0975
UEI:	XQJFSL4MCKR9
Cage Code:	7VW94
Ordering Period:	11/1/2026 - 10/31/2036 A 5-year base period plus one 5-year option period

About Akima Data Management

Today's joint operations demand the rapid collection, fusion, and transmission of information at unprecedented speed, capacity, availability, precision, and security. This complex and critical world is the one we at Akima Data Management (ADM) inhabit. We bring to it the agile and innovative services and solutions that enable mission dominance. As an SBA-certified 8(a) company wholly owned by an Alaska Native Corporation, ADM is your strategic partner for comprehensive technology, cloud, and cyber expertise in the design, implementation, and sustainment of government networks. In every endeavor, we provide engineering excellence through a unique methodology focused on our customers' requirements, environments, and mission.
