## About NASA SEWP VI

NASA Solutions for Enterprise-Wide Procurement VI (SEWP VI) is an OMB-designated Best-in-Class multiple-award Indefinite Delivery/Indefinite Quantity (MA-IDIQ) Governmentwide Acquisition Contract (GWAC) administered by the National Aeronautics and Space Administration (NASA) and available to all federal agencies for the procurement of IT products and services. SEWP VI is designed to provide federal agencies with access to a broad range of commercial offerings, including hardware, software, cloud services, cybersecurity technologies, engineering support, and consulting services. SEWP is composed of three (3) scope categories:

- **Category A** - ITC/AV Solutions
- **Category B** - Enterprise-Wide ITC/AV Service Solutions
- **Category C** - Mission-Based ITC/AV Service Solutions

## SEWP Ordering Process

Procurement orders must be routed through the SEWP Program Management Office (PMO) at [sewporders@sewp.nasa.gov](mailto:sewporders@sewp.nasa.gov). All delivery orders are processed within the business day of receipt and electronically forwarded to the Contract Holder.

SEWP online RFI/RFP tool is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP RFI/RFP tool will automatically include the Contract Holders within a selected Group or based on a suggested source.

### STEP 1

#### End User or Contracting Officer

1. Determines best value through market research.
2. Creates delivery order citing SEWP contract number.
3. Sends order to SEWP PMO

### STEP 2

#### NASA SEWP PMO

1. Verifies order.
2. Forwards valid order to appropriate contract holder.

### STEP 3

#### Affigent Systems

1. Processes order.
2. Delivers equipment and services.
3. Invoices Agency or Contractor.
